For example, I have a dictionary of the form {1: ['banana', 'apple', 'carrot'], 2: ['melon', 'watermelon', 'tuna']} where the list is the values and the dictionary is the keys. If I then call the function with the dictionary: values = {1:['banana', 'apple', 'carrot'], 2:['melon', ' a1d647c40b

BEIRUT (Reuters) - A U.S.-backed Syrian opposition force in northern Syria, the SDF, has agreed to redeploy its forces to the city of Raqqa, de facto leader Omar al-Shishani said on Monday, taking steps towards retaking the Islamic State stronghold. FILE PHOTO: Kurdish fighters of the Syrian Democratic Forces walk in Raqqa, Syria, May 24, 2017. REUTERS/Rodi Said “We reached a deal with the SDF in which they will have control over the area east of the Euphrates river,” Shishani told Reuters in an interview at a refugee camp in the northern town of Rastan, close to the border with Turkey. He said the SDF would enter Raqqa on condition that U.S. and allied forces would stop supporting the Syrian Kurdish YPG militia, which the SDF relies on for its ground campaign. “They will (the U.S. forces) withdraw, and only those forces that support us will remain on the ground in Raqqa,” Shishani said. The SDF said in a statement that it would leave Raqqa under the supervision of an international coalition, with forces from Raqqa’s self-rule council and local forces. Shishani said the SDF, which includes the YPG, could have redeployed a militia in northern Syria that has been battling Islamic State in the east, but that the American-backed fighters had preferred to help the YPG on the ground in Raqqa. A spokesman for the U.S.-led coalition against Islamic State said he could not confirm or deny the agreement and he could not confirm if the coalition’s forces would pull out. U.S. President Donald Trump, who criticized the U.S.-backed YPG militia as a terrorist group, congratulated Shishani for the deal. “We’ll be talking to the Kurds and the others about what’s going to happen in terms of Raqqa, and I
