Open Autocad. Open file "desc.vda". Click on "File" tab at the bottom of the window and then select "Open from the desktop..." and select "Desc.vda" file you downloaded in step 1. After that Autocad will open the file for you. To activate the keygen for Autocad after you opened the file, click the "File" tab at the bottom of the window and then select "Expert Mode..." and click "Set Expert Mode". At the top of the window there is an option to show keygens. You may click on it. After that, you will see the "installation key" inside the new window, which is the key that you need to activate your copy of Autocad.
